

FLORENCE COMAJES

SENIOR SOFTWARE DEVELOPER

ABOUT

With over 8 years of experience as a highly skilled Full Stack Laravel Developer, I excel in PHP Laravel and possess proficiency in UI Development utilizing Vue, Vuex, and Nuxt.js. My expertise extends to crafting components, implementing SSR, constructing Single Page Applications, and adeptly managing states. I boast extensive experience in developing RESTFUL APIs, implementing Architectural Patterns, and employing Domain Driven Design. Additionally, I possess a robust background in seamlessly integrating third-party libraries. Furthermore, my skills include deploying AWS Serverless applications using Vapor and Forge.

WORK EXPERIENCE

COFOUNDRY - PHP Laravel / Vue Web Developer

Engaged as a Software Frontend Engineer, I took charge of rectifying UI bugs, elevating features in the user interface, and skillfully translating mockups into reusable Vue.js components. In addition, I expertly transformed the design into a Mobile Responsive layout, guaranteeing an outstanding user experience across diverse devices. Furthermore, I accomplished the seamless transition from static HTML to dynamic Vue components, underscoring my dedication to contemporary and efficient development methodologies.

TECH STYLE FASHION GROUP - Software Engineer

Contributed as a Software Frontend Engineer, where my responsibilities included resolving UI bugs, enhancing features within the user interface, and seamlessly implementing mockups into reusable Vue.js components. Additionally, I adeptly converted the design into a Mobile Responsive layout, ensuring optimal user

DEV PARTNERS - FULLSTACK WEB DEVELOPER

Served as a FullStack Web Developer with a primary focus on crafting compelling Frontend UIs. Demonstrating a keen eye for design, I successfully translated Figma designs into fully functional web applications, showcasing my ability to bridge the gap between aesthetic vision and practical

TELEFOXIO - LARAVEL / VUE SENIOR DEVELOPER

As a Frontend Software Engineer, I possess a proven track record of building applications from the ground up using Vue.js, coupled with Vuex for efficient state management. I excel in integrating third-party libraries, seamlessly incorporating payment gateways and CRM systems to enhance the functionality and versatility of the applications. My commitment to creating robust and dynamic solutions is reflected in my meticulous approach to software development.

ILATHYS PRE LTD. - FULLSTACK WEB & MOBILE DEV

Transformed legacy jQuery applications into robust Vue.js solutions, showcasing my ability to modernize and elevate software architecture. Specializing in crafting single-page applications, I adeptly utilize Ajax/Axios requests to ensure seamless user interactions. Additionally, I bring expertise in implementing Bootstrap 3 and designing for Mobile Responsiveness, further enhancing the overall user experience.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

DAVAO DEL NORTE STATE COLLEGE
